About St. Leger Homes

St. Leger Homes are an Arm's Length Management Organisation (ALMO) who manage and service the 21,000 council homes in Doncaster.

When St. Leger Homes had issues with a problematic door and screen on one of their blocks – Sandbeck House – Sharon Hoskin (a St Leger Housing Officer) gave Warrior Doors a call.

How do you feel since the installation of the Warrior Doors?

"A few days after the installation of the door we had an incident reported where 2 males tried to break into the block of flats but could not pull the door open. They proceeded to try and damage the door and I can happily report that there wasn't even a scuff on it!

We think the door and screen look great and we're really pleased with it."

St. Leger Homes

How did you find your experience working with Warrior Doors?

"I was really impressed by the speed in which Warrior Doors acted. We put the order in on November 30th, and after only 7 working days the new door and screen at Sandbeck House had been manufactured and installed.

I was initially quite anxious about increasing the level of glazing on the entrance door, as in the past we have had hooligans smash in glass panels. However, Brett (Warrior Doors, MD) took the time to reassure me and walked me through the benefits of having full glazing – I am still pleased we made the decision to opt for it."

"We think the door and screen look great and we're really pleased with it."

Sharon Hoskin, St Leger Homes, Housing Officer.
